## MVP Health Care announces agreement with Portsmouth Regional Hospital and Parkland Medical Center

MVP Health Care announced today that it has reached a contract agreement through December 31, 2013, with Portsmouth Regional Hospital in Portsmouth, NH and Parkland Medical Center in Derry, NH. The long term agreement resolves MVP concerns over rates charged by the hospitals for health care services provided to MVP members.

The agreement with Portsmouth Regional Hospital and Parkland Medical Center is fair to all parties and is in the best interest of our members, employer groups and the hospitals.

The hospitals will continue to be in-network for all covered services.
