## Vermont Single Payer - Large Employer Gives Testimony on Proposed Bill H202/S57

Testimony was provided by IBM during the Senate Health and Welfare Committee meetings this week. The following is an excerpt from that testimony:

"I must frankly say that IBM is disappointed that significant large employer concerns about maintaining existing health benefits design and funding flexibility were not incorporated in prior legislative action on this bill. You are asking us to trust that this health care financing and delivery system overhaul will produce lower costs and better health outcomes for employers like IBM than we can accomplish for ourselves. This is a significant risk for our company to take."

Please [click here](#) to read the full testimony given by IBM.

MVP's position statement on the bill and links to elected officials can be found [here](#). Additional resources on this subject can be found by clicking [here](#).

Thank you for your continued support of MVP Health Care. Please contact your Broker Administration Representative with any questions.
