

Medicare Creditable Coverage Determinations

For Products Effective in 2027

- Only the pharmacy classifications listed below impact creditable coverage determinations.
- Categories such as contraception, out-of-network benefits, etc., do **not** affect the determination.
- If a product does **not include a prescription pharmacy benefit**, it is **NOT CREDITABLE**.
- If a prescription pharmacy benefit or form is **not listed**, it was not evaluated. Please reach out for assistance.
- All **Medicare products** with prescription pharmacy coverage are considered **CREDITABLE**.
- Determinations are based on analysis conducted on **October 1, 2026**.

Note on Minimum Integrated HRA Contribution:

- Reflects the minimum integrated medical and pharmacy Health Reimbursement Account (HRA) contribution required to meet creditable coverage (rounded to the nearest \$100)
- Assumes the same baseline pharmacy allocation as the integrated deductible and out-of-pocket maximum.
- Assumes no rollover of HRA contributions, in accordance with CMS regulations.
