MVP to Expand Partnership with Avalon Healthcare Solutions

To keep our valued care delivery partners informed, MVP Health Care® (MVP) is announcing that effective January 1, 2026, MVP is expanding their partnership with Avalon to offer a suite of laboratory benefit management services focusing on precision genetic testing management (PGTM).

Through this partnership, MVP will increase our ability to help Members get the right test at the right time.

The PGTM program aims to improve access, quality, and affordability of laboratory care; support Providers in understanding MVP genetic testing policies and reimbursement guidelines; and improve the health care experience for patients.

Provider Education

To review training information about this transition, visit [**mvphealthcare.com/providers/education**](https://mvphealthcare.com/providers/education) and select *Clinical Education Resources*, then select the materials under *Precision Genetic Testing Management (PGTM)*.

If you have questions, please contact your MVP Provider Relations Representative or your Provider Partnership Liaison.
