

This communication should be viewed by:
Behavioral Health Providers

MVP partnering with Attac Consulting Group

MVP Health Care® (MVP) values your dedication in supporting our Members and remains committed to providing them with reliable access to care.

MVP is currently collaborating with *Attac Consulting Group*. Attac focuses on operations and health care compliance for health insurers and managed care organizations.

Attac will collaborate with MVP to verify the accuracy of the information available on our website and accessible to Members.

How this impacts Providers:

In the coming weeks, Attac will contact some Providers on our behalf to help verify that the demographic information and appointment availability is accurate on our *Find a Doctor* tool on our website.

How will Providers be contacted?

Attac will conduct both telephone and fax campaigns with Providers. **If you are contacted by an Attac representative, please take a few moments to verify the information MVP currently has on record.** Certain Providers may receive a faxed form, which should be completed and returned to the designated number provided in the communication.

We thank you in advance for your participation in this important exercise. We are committed to ensuring that our Members have access to care you provide.
