

# Coding Reference Guide Measurement Year 2024

## Follow-Up After Emergency Department Visit for Mental Illness (FUM)

### Measure Description

The percentage of emergency department (ED) visits for Members six years of age and older with a principal diagnosis of mental illness or intentional self-harm on or between January 1, 2024 and December 1, 2024 who had a follow-up visit for mental illness during these timeframes:

#### 1. 7-Day Follow-Up

The percentage of ED visits for which the Member had either of the following: **1) principal diagnosis of a mental health disorder;** or, **2) principal diagnosis of intentional self-harm and any diagnosis of a mental health disorder,** and received a follow-up visit with any provider within seven days after the ED visit (eight total days). Follow-up visits that occur on the same date as the ED visit are included.

#### 2. 30-Day Follow-Up

The percentage of ED visits for which the Member had either of the following: **1) principal diagnosis of a mental health disorder;** or, **2) principal diagnosis of intentional self-harm and any diagnosis of a mental health disorder,** and received a follow-up visit with any provider within 30 days after the ED visit (31 total days).

The follow-up visits/encounter codes below meet criteria for both 7-day and 30-day follow-up indicators and require either a:

- Principal diagnosis of a mental health disorder
- Principal diagnosis of intentional self-harm and any diagnosis of a mental health disorder

<b>Outpatient Visit and Outpatient POS</b>	<b>Visit Setting Unspecified</b> <b>CPT:</b> 90791, 90792, 90832, 90833, 90834, 90836, 90837, 90838, 90839, 90840, 90845, 90847, 90849, 90853, 90875, 90876, 99221, 99222, 99223, 99231, 99232, 99233, 99238, 99239, 99252, 99253, 99254, 99255

<b>Patients who died any time during 2024</b>	

## Tips and Best Practices to Help Improve Performance

- Reach out to patients as soon as you are notified of their ED visit to schedule their follow-up visit
  - Follow-up care for people with mental health conditions can result in fewer repeat ED visits, as well as improved physical and mental function and increased compliance with follow-up instructions
- Receiving timely information from hospitals can assist in faster follow-up
  - Consider utilizing your health information exchange (HIE) to gain more information on ED discharges or by working collaboratively with the ED to obtain data exchange reports on your patients to improve care coordination
- Consider maintaining appointment availability in your calendar dedicated for patients with recent ED visits to ensure they can schedule follow-up appointments in a timely manner
- Consider outreach to reschedule for patients that cancel appointments or do not show up
- Refer patients to appropriate behavioral health providers in their area
- Utilize your monthly Gaps in Care (GIC) report for a list of MVP Members and the services or screenings they still need
