Tips and Best Practices to Help Improve Performance

- Order and schedule mammogram appointments before the Member leaves the office
 - Have a list of facilities available to share with Members
- **Reminder about BCS exclusions:**
 - Your patient may have had a mastectomy prior to their enrollment with MVP
 - The Member's BCS gap will remain on the Gaps in Care (GIC) report until documentation to exclude is submitted to MVP
 - Please see your report's cover letter tab for instructions
 - The ICD10 code for History of Bilateral Mastectomy is Z90.13
- Document medical and surgical history in the record, including dates and procedure names
- Document all screenings in the medical record, noting the specific dates and results
- Use correct diagnosis and procedure codes; submit claims and encounter data in a timely manner
- Breast MRIs, ultrasounds, and biopsies do not count for this measure
 - Although these procedures may be indicated for evaluating women at higher risk for breast cancer or for diagnostic purposes, they are performed as an adjunct to mammography and do not count toward compliance on their own
- Stock patient areas and exam rooms with breast cancer screening educational materials
