

# Coding Reference Guide Measurement Year 2025

## Initiation and Engagement of Substance Use Disorder Treatment (IET)

### Measure Description

The percentage of new substance use disorder (SUD) episodes that occur on or between November 15, 2024 and November 14, 2025 that result in treatment initiation and engagement for the following indicators:

#### 1. Initiation of SUD Treatment

The percentage of new SUD episodes that result in treatment initiation through an inpatient SUD admission, outpatient visit, intensive outpatient encounter, partial hospitalization, telehealth visit, or medication treatment within 14 days.

#### 2. Engagement of SUD Treatment

The percentage of new SUD episodes that have evidence of treatment engagement within 34 days of initiation.

### Initiation of SUD treatment within 14 days of the SUD episode date (an encounter during the intake period with a diagnosis of SUD).

#### Step 1:

If the SUD episode was an inpatient discharge, the inpatient stay is considered initiation of treatment and the SUD episode is compliant.

#### Step 2:

If the SUD episode was an opioid treatment service that bills monthly, the opioid treatment service is considered initiation of treatment and the SUD episode is compliant.

#### Opioid Abuse and Dependence (OUD)

#### Monthly Office Based Treatment

#### HCPCS:

G2086, G2087

#### Step 3

For remaining SUD episodes (those not compliant after steps 1–2), identify episodes with at least one of the following on the SUD episode date or during the 13 days after the SUD episode date (14 total days)

#### An acute or nonacute inpatient admission with a diagnosis (on the discharge claim) of one of the following:

#### Alcohol Abuse and Dependence

#### ICD10:

**Members who died any time during 2025****Tips and Best Practices to Help Improve Performance**

- Consider outreach to reschedule for Members that cancel appointments or do not show up
- Refer Members to appropriate behavioral health providers in their area
- Utilize your monthly Gaps in Care (GIC) report for a list of MVP Members and the services or screenings they still need
- Consider using alerts or flags within the electronic health record (EHR) for screenings and tests
- Discuss the importance of early detection and encourage screenings; refer annually if needed
- Document preventive care in the medical record and indicate the specific date and results
- Document medical and surgical history in the medical record and include dates
