

Medicare Creditable Coverage Determinations

Determinations for Products with an Effective Date in 2022

Only the Rx classifications below impact determination. Contraception, Out of Network, etc do not impact determination.

If there is **no Rx benefit**, then it is **NOT CREDITABLE**.

Medicare products with Rx coverage are CREDITABLE.

Based on analysis performed by Milliman (Exhibits_20210930.xlsx received 9/30/2021)

**Minimum integrated HRA contribution note:

Reflects the minimum integrated, medical and Rx, health reimbursement account (HRA) contribution in order to meet creditable coverage (rounded to nearest \$100).

Assumes the same baseline Rx allocation as the integrated deductible and out-of-pocket maximum.

Assumes no rollover of HRA contributions, per CMS regulation.
