

## **Provide Opioid Feedback Before 2/22 Deadline**

MVP Health Care® (MVP) is dedicated to working with you to fight the opioid epidemic, but we need your help.

Please take the short survey at [bitly.com/2SzWhKf](https://bitly.com/2SzWhKf) to let us know what tools and resources you find most helpful when prescribing opioids. Your answers will help us develop programs that will make the greatest impact so we can support providers and members in the fight against the opioid epidemic.

We ask that you respond to our survey by **February 22, 2019**. Your feedback is greatly appreciated!

### **Did you know?**

Upon request, MVP can pull prescription data for your patients on >90 MME of opioid therapy for ≥7 days. Please contact your PR representative to request a report.
