

Payment Policy Clarification: Services Not Reimbursed

As previously communicated on 6/1/19 MVP Health Care® (MVP) uses Claims EXT edits and Medicare edits for services that are not reimbursed distinctly and separately. In addition, it was communicated that MVP will not reimburse for services that fall under the categories listed below; these services are inclusive to the other payments made by MVP for dates of service 9/1/2019 and later.

MVP also communicated that CPT code 93793 (Anticoagulation management for patients taking warfarin) was part of these services that would not be separately reimbursed. MVP has made the decision to remove this code from the list below and will continue to reimburse for this service when appropriate. This will be effective 9/1/2019.

Category	CPT codes
Care Management Services (including care planning, care plan oversight, assessment, care management home visits, chronic or complex care management services, & medication therapy management) Facilities that have been identified by MVP as a Health Home will be reimbursed separately for these services as outlined by New York State Guidelines.	99366-99368, 99490, 99491, 99487, 99489, G0076-G0087, 99339, 99340, 99379, 99380, S0315-S0317, S0280-S0281, 99605-99607, S0280, S0281, G0506, G9001, G9005, T2022
