\*Tier 3 drugs for CHPlus members require prior authorization

# 2018 PRESCRIPTION DRUG FORMULARY

## EFFECTIVE February 1, 2018

Your physician is the person best suited to help you make decisions about prescription drugs, and the prescription drug information below is intended for consumer guidance only. This information relates to the Prescription Drug Formulary, generally, and may not describe your particular coverage. Your Certificate of Coverage or Summary Plan Description determines your benefits, limitations and exclusions.

Drug coverage and copayment/coinsurance for each tier is based upon the specific rider chosen by the employer group.

While every effort has been made to insure accuracy, some information may be out of date. The Formulary is subject to change based on decisions made by the Pharmacy & Therapeutics (P&T) committee. New drugs are not covered until reviewed by the P&T committee. Medications with an over-the-counter equivalent are not a covered benefit. Brand name drugs may be subject to additional member costs when a generic equivalent is available. Generic drugs on the formulary may not have the equivalent brand name product listed.

Products are listed in their most represented tier. Certain drugs may have a generic name but are a brand drug and will process as tier 3 product. For example a drug may be listed in tier 1 but a certain strength, dosage form or manufacturer may be considered a brand drug and will process at tier 3.

Your employer may have limited your coverage of certain prescription drugs. In the case of some drugs, the Plan limits coverage to a specific quantity or a specific course of treatment. The Plan may also require prior authorization on some covered drugs. If you need more information about policies regarding a specific drug, consult your physician or contact the Customer Care Center. If the medication you take is not listed below, contact the CVS Caremark Customer Care Center at the phone number listed on your identification card. The Prescription Drug Formulary does not apply to members who receive coverage through an Indemnity plan. Some members have a three-tier prescription benefit for which copay levels are described below.

DRUG CATEGORY	TIER 1 The lowest copay choice and usually includes generic drugs.		TIER 2 The mid-range copay choice and includes covered brand name drugs because of their overall value.	TIER 3 The highest copay choice and includes all other covered brand name drugs. Prior authorization is required for 2 tier benefit designs.		MEDICAL (M)
<b>ACE Inhibitors** (blood pressure lowering, includes combination products)</b>	benazepril/HCTZ captopril/HCTZ enalapril/HCTZ fosinopril/HCTZ lisinopril/HCTZ	moexipril/HCTZ perindopril quinapril/HCTZ ramipril trandolapril trandolapril-verapamil	None	Accupril Accuretic Aceon Altace Epaned Lotensin Mavik	Prestalia Prinivil Qbrelis Vasotec Zestril Zestoretic
