As part of a voluntary wellness program, you will also be asked to complete a voluntary biometric assessment test, which will include a blood test for general screening purposes. The biometric assessment test will not gather any genetic information of the participant, except to the degree health information about an employee's spouse is considered genetic information of the employee under the Genetic Information Nondisclosure Act of 2008 ("GINA"). American Specialty Health Management, Inc. (provider of the Healthyroads program) and its affiliates or subsidiaries as well as their successors, assignees, and licensees (hereinafter "ASH Management") may use and/or provide the information relating to the biometric assessment tests to your plan sponsor or health plan, or to other entities that have contracted with your plan sponsor or health plan, as applicable, to administer your plan. In addition, ASH Management may also use your personal information obtained through the biometric assessment results form to provide you with information about other health-related benefits available to you through your plan sponsor or health plan, as applicable. That data may also be used to populate your online tools on [Healthyroads.com](http://Healthyroads.com), which may be used by your Healthyroads Coach® in connection with the Healthyroads Coaching Program if that program is available to you and you choose to participate in it. Provision of the information noted above to your plan sponsor, health plan, or other entities, as applicable, and for health coach outreach to the phone number you provide that have contracted with your plan sponsor or health plan to administer your plan, is intended for purposes related to treatment, payment (billing, eligibility) or operational and administrative requirements. Such purposes will vary by entity, but may include, eligibility for incentives due to participation in the program, quality control and auditing purposes, and facilitation with case management or disease management programs available from your plan sponsor or health plan, as applicable. In these situations, ASH Management requires recipients of the information to ensure that there are safeguards in place so that personal information is only used for the purposes noted. If information is disclosed to plan sponsors who are employers, then such information is required to be used for benefit administration purposes only. Your health information will not be sold, exchanged, transferred, or otherwise disclosed except to the extent permitted by law to carry out specific activities related to the wellness program, and you will not be asked or required to waive the confidentiality of your health information as a condition of participating in the wellness program or receiving an incentive. Anyone who receives your information for purposes of providing you services as part of the wellness program will abide by the same confidentiality requirements. Your employer or plan sponsor cannot deny you access to health coverage or have the extent of your benefits limited, or subject you to any other adverse employment action or retaliation, for not participating.
