# PRESCRIPTION DRUG FORMULARY

Effective August 1, 2019

# 2019 PRESCRIPTION DRUG FORMULARY

## EFFECTIVE August 1, 2019

Your physician is the person best suited to help you make decisions about prescription drugs, and the prescription drug information below is intended for consumer guidance only. This information relates to the Prescription Drug Formulary, generally, and may not describe your particular coverage. Your Member Handbook determines your benefits, limitations and exclusions.

While every effort has been made to insure accuracy, some information may be out of date. The Formulary is subject to change based on decisions made by the Pharmacy & Therapeutics (P&T) committee. New drugs are not covered until reviewed by the P&T committee. Medications with an over-the-counter equivalent are not a covered benefit. Drugs entering the market between 1938 and 1962 that were approved for safety but not effectiveness are called “DESI” drugs. DESI drugs are not covered on the Medicaid Formulary.

Coverage is limited to a 30-day supply of medication at a participating retail pharmacy. The Plan may limit coverage to a specific quantity or a specific course of treatment. The Plan may also require prior authorization on some covered drugs. If you need more information about policies regarding a specific drug, consult your physician or contact the Customer Care Center. If the medication you take is not listed below, contact the CVSCaremark Customer Care Center at the phone number listed on your identification card.

DRUG CATEGORY	TIER 1	TIER 2	TIER 3 (NON-FORMULARY) Prior authorization is required for drugs listed in this column.	MEDICAL (M)	
<b>ACE Inhibitors (blood pressure lowering, includes combination products)</b>	benazepril/HCTZ captopril/HCTZ enalapril/HCTZ fosinopril/HCTZ lisinopril/HCTZ	moexipril/HCTZ perindopril quinapril/HCTZ ramipril trandolapril	None	Accupril Accuretic Aceon Altace Epaned Lotensin Mavik Prestalia Prinivil Qbrelis Vasotec Zestril Zestoretic <sup>EX</sup>	
<b>Adrenal Hormones Oral</b>	cortisone dexamethasone fludrocortisone hydrocortisone methylprednisolone prednisolone prednisone	None	Cortef Dexpak Emflaza <sup>#</sup> Medrol Millipred Orapred ODT	Acthar HP <sup>#</sup>
