

PATIENTS ENTERING ADULTHOOD?

.....

DO THEY NEED HELP FINDING A NEW HEALTH CARE PROVIDER?

Patients entering adulthood (ages 18 and up) may want help or need encouragement to transition from you, their pediatrician, to an adult care provider.

MVP Health Care® offers resources to help you service your adolescent patients.

- MVP's online provider directory enables members to search and choose an adult provider by several preferences such as location, board certification, gender or language spoken. Go to mvphealthcare.com click *Members* then *Find a Doctor* then *Doctor Search*.

The MVP Customer Care Center is available to assist older adolescent members (ages 18 and up) transition from a pediatrician and/or pediatric specialists to an adult provider when they wish to make the change. Members can reach MVP's Customer Care Center by calling the phone number on the back of their Member ID card.

- MVP offers a template letter to make it easy for you to contact your patients over the age of 18 to help make the transition from **your practice** to an adult practice. Contact your MVP Quality Improvement Department for more details at **1-800-777-4793**, extension **42343**.
