***NEW Reflective Silver Plans**
 The Reflective Silver plans very closely mirror the Silver plans and are available at a lower premium. Because they are not SHOP certified and can only be purchased directly from MVP, these plans make the most sense for groups offering Silver plans, but that are not eligible or do not intend to file for the Small Business Health Care Tax Credit.

The Difference Between Aggregate and Embedded Plans
Aggregate (AGG): For any policy with two or more members, the deductible must be met by any one or any combination of members before the plan will make payments.
Embedded (EMB): Each member pays toward, but never exceeds, their individual deductible or and/or OOPM until the larger family deductible and/or OOPM is met. Once the family deductible and/or OOPM are met, the plan makes payments for all services of all members on the contract, regardless of the status of any remaining individual deductible and/or OOPM levels.

Benefits are subject to the deductible, unless otherwise noted (NoDD). NoDD: Not subject to deductible.
VBID: Value-Based Insurance Design Maintenance Medications not subject to deductible.
[†] This plan features an aggregate deductible and out-of-pocket maximum. Each member on a family plan will pay toward the family out-of-pocket maximum (OOPM). However, no individual will pay more than the government mandated maximum OOPM of \$7,900.
 These plan overviews are intended to provide a general outline of coverage. In the event of any conflict between this document and your Certificate of Coverage, Summary of Benefits and Coverage, and any applicable Rider(s), your Certificate of Coverage, Summary of Benefits and Coverage, and Rider(s) will be controlling.
 Health benefit plans are issued or administered by MVP Health Plan, Inc.; MVP Health Insurance Company; MVP Select Care, Inc.; and MVP Health Services Corp., operating subsidiaries of MVP Health Care, Inc. Not all plans available in all states and counties.
