MVP Medicaid

PRESCRIPTION DRUG FORMULARY

Effective October 1, 2016

2016 PRESCRIPTION DRUG FORMULARY

EFFECTIVE October 1, 2016

Your physician is the person best suited to help you make decisions about prescription drugs, and the prescription drug information below is intended for consumer guidance only. This information relates to the Prescription Drug Formulary, generally, and may not describe your particular coverage. Your Member Handbook determines your benefits, limitations and exclusions.

While every effort has been made to insure accuracy, some information may be out of date. The Formulary is subject to change based on decisions made by the Pharmacy & Therapeutics (P&T) committee. New drugs are not covered until reviewed by the P&T committee. Medications with an over-the-counter equivalent are not a covered benefit. Drugs entering the market between 1938 and 1962 that were approved for safety but not effectiveness are called "DESI" drugs. DESI drugs are not covered on the Medicaid Formulary.

The Plan may limit coverage to a specific quantity or a specific course of treatment. The Plan may also require prior authorization on some covered drugs. If you need more information about policies regarding a specific drug, consult your physician or contact the Customer Care Center. If the medication you take is not listed below, contact the CVS/caremark Customer Care Center at the phone number listed on your identification card.

DRUG CATEGORY	TIER 1	TIER 2	TIER 3 (NON-FORMULARY) <small>Prior authorization is required for drugs listed in this column.</small>	MEDICAL (M)
ACE Inhibitors (blood pressure lowering, includes combination products)	benazepril/HCTZ captopril/HCTZ enalapril/HCTZ fosinopril/HCTZ lisinopril/HCTZ	moexipril/HCTZ perindopril quinapril/HCTZ ramipril trandolapril trandolapril- verapamil	None	Accupril Accuretic Aceon Altace Epaned Lotensin Mavik Prestalia Prinivil Qbrelis# Vasotec Zestril Zestoretic
Adrenal Hormones Oral	cortisone dexamethasone fludrocortisone hydrocortisone methylprednisolone prednisolone prednisone	None	Cortef Dexpak Medrol Millipred Orapred ODT Prelone	Acthar HP ^{#,†}
Adrenergic Antagonists	clonidine clonidine patch doxazosin guanfacine methyldopa/HCTZ	midodrine prazosin reserpine terazosin	None	Cardura/XL Catapres/TTS Minipress Tenex
Alzheimer's Agents	donepezil ergoloid galantamine memantine rivastigmine oral/patch	Namenda XR/soln	Aricept Exelon oral/patch Namenda IR Namzaric Razadyne ER
