

# Preventive Care Drug List

Revised March 2022

Preventive Drugs are medications that MVP Health Care®, in conjunction with its Pharmacy & Therapeutics (P&T) Committee, has determined may prevent the onset of a disease or condition when taken by a person who has developed risk factors for a disease or condition that has not yet manifested itself or has not become clinically apparent (asymptomatic), or may prevent the recurrence of a disease or condition from which a person has recovered.

High-Deductible Health Plans (HDHPs) may provide benefits only after a deductible has been met. However, Federal regulations do allow safe harbor coverage for qualifying preventive services and medications (those listed below) prior to the deductible being met. The preventive safe harbor does not include any drug or medication used to treat an existing illness, injury, or condition. A rider to allow this preventive coverage is required.

Medications on the Preventive Care Drug List are subject to Formulary and Tier status as well as pharmacy management programs such as prior authorization, step therapy, brand/generic difference pricing, and/or quantity limits. Refer to the Prescription Drug Formulary online at [mvphealthcare.com](http://mvphealthcare.com) for more detailed information about coverage and Tier information.

This list is not a guarantee of coverage. Your specific plan documents determine your benefits, limitations, and exclusions. While every effort has been made to ensure accuracy, some information may be out of date. The Preventive Care Drug List is subject to change based on decisions made by the P&T Committee.

For drugs on this list that have a generic equivalent, the member will be responsible for an additional cost share of the difference in cost between the brand and the generic drug. Some plan designs do not cover brand drugs when a generic is available.

If you need more information about the content of this list, contact the MVP Customer Care Center at the phone number listed on the back of your MVP Member ID card.
