

## Methodology Changes for 2021

The MVP Health Care<sup>®</sup> Provider Excellence Program scoring methodology for measuring provider performance will be periodically updated as industry standards evolve, and provider feedback is obtained. Program updates reflect MVP's commitment to continuous development to our program. Changes to MVP's Provider Excellence Program methodology for 2021 are outlined below:

Methodology	2021 Change/Enhancement	Details/Rationale
1.4 Provider Scoring Assessment Period	Quality is assessed based on Healthcare Effectiveness Data and Information Set (HEDIS) performance from January 1, 2020 through December 31, 2020. Cost efficiency is assessed based on dates of service from January 1, 2018 through December 31, 2020.	MVP uses the most recent data available to assess provider performance.
4.1 Quality Measure Sets	<p>MVP removed the following quality measures for Pediatrics:</p> <ul style="list-style-type: none"> <li>• Adolescent Well Visits</li> <li>• Medication Management for People with Asthma 50% Days Covered</li> <li>• Well-Child ages 3-6</li> <li>• Well-Child Visits in the First 15 Months of Life</li> </ul> <p>MVP added the following measures for Pediatrics:</p> <ul style="list-style-type: none"> <li>• Asthma Medication Ratio</li> <li>• Child and Adolescent Well Care Visits</li> <li>• Well-Child Visits in the First 30 Months of Life</li> </ul>	<p>Measures were removed from the assessment were retired or revised measures by NCQA HEDIS.</p> <p>NCQA HEDIS measures were added to each respective specialty based on clinical relevance and appropriateness.</p>
